## Water Quality Monitoring Volunteer Sign Up Form

You will be contacted when we receive your completed form.

Name: \_\_\_\_\_

Email: \_\_\_\_\_

Phone: \_\_\_\_\_

Are you over 18? Yes/No \_\_\_\_\_

Do you have a boat? Yes/No \_\_\_\_\_

Area of the lake on which you live? \_\_\_\_\_

Duration of time spent at the lake? When do you usually arrive (month)? \_\_\_\_\_

Can you commit to collecting at least 4 samples during the summer months? Yes/no \_\_\_\_\_

The preference is to have water samples collected every 2 weeks beginning in June and ending in September. Some volunteers sample for longer periods, but it is not required. The more samples collected the better for monitoring the long term health of the lake.

Do you have someone who can assist you in sampling? It is easier to do the sampling with a partner. \_\_\_\_\_

Are you willing to have your photo included in promotional materials such as press releases, social media, and on our website? \_\_\_\_\_

Working to protect the water quality and natural resources of  
Lake Winnepesaukee and its watershed now and for future generations.
